Parts, materials	At-Cost	-	
Fuel dispensed at site	5.00	1 gallon	2

1. All emissions, refrigeration, and electrical diagnosis work is subject to this rate, which also applies if you need us to arrange specific site visit times in advance.
2. Updated quarterly to reflect fuel price levels.
3. Solanum does not handle or dispose of regulated hazardous materials. Engine oil and coolant are not regulated hazardous materials.
4. Covers truck and one technician, beginning when the truck leaves Milford, NJ 08848, or the previous jobsite; and ending when it returns to 08848, or departs for the next jobsite. Usually subject to NJ Sales Tax if the equipment is owned by a commercial organization.
5. Does not apply per visit on multiple-day projects.
6. If you need work to be done at exactly a certain time and date that is not subject to change as things come up in the meantime, this counts as short-notice work regardless of how far in advance it's scheduled. The reason for this is it requires us to say "no" to emergencies that come up earlier.
